

# Resolution Editor

Your Token: @2Y17L8Y2

Please write this token down, because it will be used to identify your resolution when you want continue working on it later. Talk to your Chair if you've forgotten your resolution token. (Looking at your browser's history can be helpful too.)

Your current access level is [MA](#).

Status: Approval Panel Correcting #2

The Approval Panel is correcting this resolution. Only Chairs, who always have access, and the Approval Panel can edit this resolution. After having entered the Approval Panel access code to open the editor, spelling and grammar mistakes in the resolution are corrected. Then a button is pressed to approve and advance this resolution to the next step.

**Advance to next stage by:** Entering an AP or Chair access code for approval by the Approval Panel

## Important Note

Please be aware of the fact that **opening the same resolution on multiple devices can have adverse effects on the integrity of the resolution** because the changes aren't updated on other devices until the page is reloaded and all local changes are thereby deleted.

## Meta-Information

This information is updated every time the page is reloaded. Timestamps are in local time of the server. (Germany)

## Attributes

**No special state** The resolution is in its original state and doesn't have any additional saving or advancement restrictions. This is the state that all resolutions are created with.

Select the new state

No special state ▼

Set the attribute state of the resolution to one of four states. *Read-only* restricts editing access, *Non-advanceable* restricts advancement and *static* combines the two previous states. *No special state* is just that; the resolution is reset to its original unrestricted state. The current state in the selector box is displayed in grey.

SET STATE

## Actions

Enter access code

 ! ABCD5678

This resolution can be advanced to [stage #3](#) by: Entering an AP or Chair access code for approval by the Approval Panel. You will be redirected back to this page but will have to re-enter your access code if you still need and possess editing access to this resolution after its advancement to the next stage.

ADVANCE

-  Save
-  View PDF
-  View Plaintext (fallback)
-  Save to file (deprecated)
-  Open from file (deprecated)
-  Delete resolution
